Iredell Water Corporation Requirements for As-built Drawings & Details

Before Iredell Water Corporation will sign the Applicant Certification Form for NCDENR the following as built details and drawings must be submitted to our office. No public water system can be placed into final service or made available for human consumption until the Iredell Water Corporation has submitted the certification and has received final approval from NCDENR.

- 1 - 24" x 36" printed as-built drawing & details
 - 8 - 11" x 17" printed as-built drawings & details
 - 1 - Electronic .pdf file of as-built drawings & details in 11 x 17 size
 - 1 - Electronic .dxf file or .shp file of water line details, with the coordinate system being US State Plane 1983, Zone: NC 3200, Datum: NAD 1983 (Conus).
- All units to be in US Survey Feet.

All electronic files shall be submitted on CD or DVD disc, with project name, engineer firm, engineer name, and date clearly marked on face of disc.
